EAME Production and Supply Graduate Development Program – Manufacturing Track

Grow your career in Syngenta. Location: Europe

Syngenta is a leading agriculture company helping to improve global food security by enabling millions of farmers to make better use of available resources. Through world class science and innovative crop solutions, our 28,000 people in over 90 countries are working to transform how crops are grown. We are committed to rescuing land from degradation, enhancing biodiversity and revitalizing rural communities. For more information about us, please go to www.syngenta.com

Developing tomorrow’s leaders

With the Production & Supply Graduate Development Program, Syngenta offers you the perfect opportunity to pursue a tailored development agenda. You will spend three years working in three different areas within or linked to Manufacturing before entering your first career role in Syngenta.

We are currently seeking to expand our talent pool for the next generation of manufacturing leaders, and are searching for talented individuals, to join our international team of professionals, who want to grow their career whilst contributing to Syngenta’s success.

Who are we looking for:

We recruit talented graduates with a Bachelor’s degree or higher qualification with proven international working experience in a science or engineering related field.

We are looking for:

- Talents who are either about to graduate or have recently graduated (no longer than 2 years ago)
- Candidates will need to be mobile and ready to work anywhere in Europe
- Hiring countries will be France, Spain or Belgium
- In addition to English, it is required to speak fluently French or Spanish
- Good analytical and interpersonal skills
- Project management experience combined with high learning agility are essentials
- Proactivity and ability to work in a team
- Relevant internships or (student) work experience

If that sounds like you then we would love to hear from you!

How and when to apply?

Please follow the application instructions:
- Fill in the online application form with as much detail as necessary
- Attach your latest CV (in English)
- Attach your university diplomas and transcripts with marks/grades
- Attach a motivation letter (in English)
** Please note that we can only consider complete applications which come through the Syngenta online application tool. The final application deadline is May 18th 2018. **

Our process includes:
- an online numerical reasoning assessment
- a telephone interview (April 2018 – May 2018)
- an Assessment Day (We host our Assessment Day – in English at one of our European sites in the south of France on June 12th and 13th 2018. Successful applicants can expect to commence the program between August and September 2018.
