

## Art & Science

An activity of SSERIES

# Art & Science Contest

Art & Science invites teams of high school students to present a scientific concept with the use of art.

*Images, sculptures, musical compositions, drawings, literary character work, theatrical performances, computer programs, graffiti, photography, dance, ...*

Each team will be assigned to a group of university students who will accompany and advise it during the project. All the participants will attend different activities at the university.

### ***Are you a student of an Alliance EELISA University?***

Mentor a participating team, accompany it, advise it and work with it. Get the same prizes as your team in addition to EELISA credentials.

## ***DO NOT HESITATE... SIGN UP***

and get the prizes!
