

## Segundo seminario de usuarios de Elephant

El proyecto financiado con fondos europeos HBP SGA3 celebrará un seminario del 17 al 19 de noviembre de 2020.

 17 Noviembre 2020 - 19 Noviembre 2020

 En línea, Suiza

Los progresos tecnológicos, metodológicos y teóricos que se suceden con gran rapidez en el ámbito de la neurociencia constituyen un gran reto para la reproducibilidad científica. Trabajar con datos de experimentos electrofisiológicos se ha convertido en una tarea tan compleja que la adquisición de datos y metadatos, así como su procesamiento previo y su análisis, deben planificarse cuidadosamente y estructurarse correctamente. Además, es necesario realizar un seguimiento detallado de su ejecución.

Durante el seminario, los participantes recibirán formación sobre la utilización de herramientas impulsadas por la comunidad en el contexto del Human Brain Project y los servicios EBRAINS. El evento virtual ofrecerá a los asistentes ayuda para integrar tales herramientas en sus propios flujos de trabajo de análisis de datos.

# Free webinar: Novel approaches to distinguishing bacterial from viral infections: lessons learnt from PERFORM and next steps in DIAMONDS.

PERFORM & DIAMONDS, European Commission Horizon 2020 program projects, present a joint webinar on febrile diagnosis and treatment.

18 November 2020 - 18 November 2020  
London, United Kingdom

© SiobhanMarkus

Consortia from two European Commission Horizon 2020 program projects are presenting in this joint seminar to present the main results of one research project (PERFORM) and the next steps with its sister project, DIAMONDS. PERFORM (PERsonalised Risk assessment in Febrile illness to Optimise Real-life Management across the European Union) aims to improve the diagnosis and management of fever in children by developing simple personalized tests to distinguish between bacterial and viral infection using

transcriptomic and proteomic biomarkers, and identifying the best management strategies for using these new tests in the varied healthcare settings of Europe. DIAMONDS (DIAGnosis and Management Of Febrile Illness using RNA Personalised Molecular Signature Diagnosis) is taking this research further through existing devices and new prototypes via an innovative approach called Personalised Molecular Signature Diagnosis (PMSD).

To register: <https://www.eventbrite.com/e/novel-approaches-to-distinguishing-bacterial-from-viral-infections-tickets-128227807825>

In this session we will hear from many of the partners in both consortia, followed by a plenary discussion.

TIME: 10:00AM – 12:30PM (CET)

9:00AM – 11:30PM (GMT)

#### SPEAKER PROGRAMME:

Aims of PERFORM and why we need better diagnostic approaches to identifying bacterial infection

Prof. Mike Levin, Imperial College London (UK)

The PERFORM Clinical Cohort: a multi-country prospective hospital cohort for study of febrile children

Prof. Federico Martín-Torres, Servizo Galego de Saude (Spain)

Emergency care in febrile children in Europe: the MOFICHE study

Prof. Dr. Henriëtte Moll, Erasmus Universitair Medisch Centrum Rotterdam (The Netherlands)

How molecular pathogen detection in blood and respiratory mucosa is changing our perspective of the bacterial/viral paradigm

Prof. Colin Fink & Dr Marie Ann Voice, Micropathology (UK)

Identifying host blood RNA biomarker signatures to diagnose bacterial infection

Dr. Myrsini Kaforou, Imperial College London (UK)

Identifying plasma protein biomarkers to distinguish bacterial and viral infection

Prof. Taco Kuijpers, Academic Medical Center Amsterdam (The Netherlands)

Translation of host biomarkers into a diagnostic test

Dr. François Mallet, bioMérieux (France)

Cost and social factors in the introduction of a test

Prof. Shunmay Yeung, The London School of Hygiene & Tropical Medicine (UK)

Plenary discussion moderated by Prof. Mike Levin

# WEBINAR: The A64FX processor: Understanding streaming kernels and sparse matrix-vector multiplication

This webinar, organized by the European Energy-Oriented Center of Excellence (EoCoE), will be hosted by Christie L. Alappat, PhD student at the RRZE, and Dr. Georg Hager, senior researcher in the HPC division at RRZE. The webinar is free and open to everyone, and will be recorded to be later available on the EoCoE YouTube channel.

18 November 2020 - 18 November 2020

Erlangen, Germany

© EU

The A64FX CPU powers the current #1 supercomputer on the Top500 list. Although it is a traditional cache-based multicore processor, its peak performance and memory bandwidth rival accelerator devices. Generating efficient code for such a new architecture requires a good understanding of its performance features. Using these features, the Erlangen Regional Computing Center (RRZE) team will detail how they construct the Execution-Cache-Memory (ECM) performance model for the A64FX

processor in the FX700 supercomputer and validate it using streaming loops. They will describe how the machine model points to peculiarities in the microarchitecture to keep in mind when optimizing applications, and how, applying the ECM model to sparse matrix-vector multiplication (SpMV), they motivate why the CRS matrix

storage format is inappropriate and how the SELL-C-sigma format can achieve bandwidth saturation for SpMV. In this context, they will also look into some code optimization strategies that are relevant for A64FX and compare SpMV performance with AMD Rome, Intel Cascade Lake and NVIDIA V100.

# Uso de EUROMOD en la microsimulación transnacional

El proyecto financiado con fondos europeos InGRID-2 celebrará una escuela de invierno del 18 al 20 de noviembre de 2020.

 18 Noviembre 2020 - 20 Noviembre 2020

 En línea, Reino Unido

Este curso en línea, organizado por el Instituto de Investigación Social y Económica (ISER) de la Universidad de Essex (Colchester), presentará a la comunidad académica, a políticos y a otros usuarios interesados los conceptos, la estructura y el funcionamiento de EUROMOD. EUROMOD aplica un avanzado modelo de microsimulación de ventajas fiscales que aúna los microdatos de encuestas domésticas y la legislación política en una única interfaz de usuario, y abarca todos los Estados miembros de la UE.

La escuela sobre EUROMOD y la microsimulación transnacional forman parte del pilar político del proyecto InGRID, que ahora se encuentra en su segunda fase de financiación de la UE en el marco del programa Horizonte 2020. Esta escuela de invierno es una de las numerosas actividades de intercambio de conocimientos y de establecimiento de redes de contactos de InGRID-2, cuyo objetivo final es ayudar a los científicos a mejorar su formación especializada y pasar de los datos a las políticas.

# FETFX Webinar on Funding Opportunities for Emerging Technology

Next week the FETFX project will host a webinar together with three ERA-NET Cofund initiatives on the latest open calls related to the European Innovation Council Pilot Programme

19 November 2020 - 19 November 2020

online webinar, Italy

© FETFX Project

On 19 November (11:00 to 12:30 CEST) the FETFX project will have its webinar on the funding opportunities for emerging technology. The objective of this online event is to provide up-to-date information on the content of the last ERA-NET Cofund open calls to potential applicants, and to provide information on the support facilities available to the applications both at a national and a European level.

We will be exploring the different opportunities being provided by the European Innovation Council (EIC) Pathfinder pilot programme, as well as the different support groups such as ours (FETFX) and Access2EIC's NCP Network. Joining the webinar are three H2020 FET ERA-NET Cofund initiatives: CHIST-ERA, FLAG-ERA and QuantERA. They will be represented by Mathieu Girerd, Marie-Alexandra Neouze, and Sylwia Kostka respectively. Also to be discussed in the webinar is QuantERA's success story – the ApresSF project to be presented by its coordinator Łukasz Rudnicki.

# Harnessing universities for innovation - online training

Are you keen to capitalise on the new ideas, technology and talent coming out of universities? But do you find academics difficult to engage with? How do you reconcile the university's public interest mandate with your company's commercial needs? And how can you formalise your relationship in a contract that works for both parties?

19 November 2020 - 19 November 2020

Hamburg, Germany

© Tutech Innovation GmbH

This workshop focuses on the core skill of achieving effective transfer of knowledge and expertise between people operating in contrasting organisational cultures and formulating ways of doing it. It also examines the processes and management issues encountered in working with universities with the aim of enabling strong and lasting partnerships that allow innovation to flourish.

The workshop will provide an opportunity to reflect on the role of universities and what it takes to establish mutually beneficial sustainable relationships. We will look at the process of transferring knowledge from research to innovation both from the perspective of working relationships and formalised contracts. The topic of how best to work in multi-stakeholder consortia and how to win funding will also be covered.

The workshop is intended for those working in the R&D or new product development

functions, those responsible for contracts with academic partners and others interested in harnessing the potential of academic-business collaboration. It is relevant to anyone managing science and technology-based innovation that could involve working with university partners.

The language of presentations will be German.

Please visit [tutech.academy](https://tutech.academy) for further details or contact Mrs. Silke Ludewigs at [academy@tutech.de](mailto:academy@tutech.de)

<https://tutech.de/termine-veranstaltungen/mit-hochschulen-kooperieren-gewusst-wie>

Note to the editor:

TUTECH INNOVATION GMBH which is organising the workshop was founded in 1992 as the technology transfer institute for the Hamburg University of Technology. We are offering services regarding participation in EU-funded programmes especially for publicly funded universities and SMEs.

Do you have an innovative idea which can be supported through digitalisation?

Do you have an innovation idea, but you are missing the right partner for implementation?

DIGI-B-CUBE project partners Business Upper Austria (Biz-up) & SECPHO are organising an online matchmaking event to present and discuss innovative ideas in order to adapt digital solutions for improving healthcare.

The event will be an ideal platform for those who are looking for collaboration partners to complement expertise in cross-sectoral innovation projects.

The Open Call launched by DIGI-B-CUBE is now in the second phase – up to €60,000 of equity-free funding can be availed by Small or Medium-Sized enterprises (SMEs).

The online event is free of charge and it will be held on November 19th, 10:00-12:00 CET.

If you are an SME operating in the health, medicine, biotech, biopharma, IT or related sectors (robotics, automation, electronics, nanotech etc.), the webinar is an excellent opportunity for you to meet other SMEs and to develop together with them project ideas in order to apply for funding.

We will introduce the DIGI-B-CUBE project to you and selected participants will have the opportunity to present their organisation and respective project ideas in a short pitch. The detailed agenda can be seen below.

If you are interested to pitch your idea then inform us at: [patricia.papic@biz-up.at](mailto:patricia.papic@biz-up.at)

Please register yourself here: <https://bit.ly/344fHyt>

Registration to participate in the webinar is open until November 16th 2020. Registration for pitching slots is optional and is open until November 2nd 2020. Link to the virtual event will be sent to registered participants prior to the event.

For any questions, please contact Patricia Papic at [patricia.papic@biz-up.at](mailto:patricia.papic@biz-up.at)

# MASTER OF FINANCE: Essentials of the Financial Rules in H2020 and Horizon Europe

Learn all the essentials of the financial rules in Horizon 2020 and Horizon Europe: Planning, calculating, reporting, reviewing.

CLIMATE CHANGE  
AND ENVIRONMENT

INDUSTRIAL  
TECHNOLOGIES

FUNDAMENTAL  
RESEARCH

23 November 2020 - 23 November 2020

Online, Hungary

© Europa Media Trainings

Date and time: 23 November 2020 at 14:00 CEST (online course, duration: 120 min)

A sound understanding of the financial rules of the Horizon 2020 Annotated Model Grant Agreement is key for a proper implementation of your research and innovation project.

We will introduce the essentials of finances in H2020/HEU to make sure you get things right from the very beginning.

## Topics covered:

- How to harmonise national accounting protocols with the H2020/HEU Grant Agreement articles
- Budgeting and planning: Why it is the most crucial part?
- What is a cost reimbursement? What is lump sum financing?
- Actual costs and unit costs? Which one should I choose?
- What makes any cost eligible? How to make them eligible?
- Linking a cost to the project? What makes them direct costs?

-Can I report indirect costs? If not, why not?

At the end of this webinar, you will get a complete picture of the key issues of finances in H2020 and HEU.

# Organic Innovation Days in cooperation with the LIVESEED Final Event for Stakeholders and Policymakers and a European Workshop on Organic Seed

Register now for the Organic Innovation Days 2020, the only EU event on research & innovation for organics taking place on 24-25 November online. For this year's edition, TP Organics will partner with the Horizon 2020 project LIVESEED that aims to boost organic seed and plant breeding across Europe. Join us in celebrating innovations and discussing research priorities for organics with actors covering the whole food value chain as well as EU policy-makers!

24 November 2020 - 25 November 2020

Brussels, Belgium

© IFOAM OE

Interested in organic research & innovation to transform food & farming? Interested in organic seed & plant breeding?

Register here:

<https://webapp.spotme.com/welcome/oid2020>

Program: <https://www.liveseed.eu/wp-content/uploads/2020/10/tpo-oid2020-programme-202010-1.pdf>

On 24 November, the LIVESEED final conference for stakeholders and policymakers will take place, discussing the main results and recommendations from the projects. Four workshops will also take place to discuss the following topics:

- \*Organic varieties in the organic regulation
- \*New models of cultivar testing for organic farming
- \*Innovative breeding approaches for organic farming
- \*Strengthening organic seed markets and business models

On the 25th of November, the day will be divided into two parallel sessions:

Session I - OID - will be dedicated to opportunities for organics in Horizon Europe. After a key-note speech by Emile Frison, member of IPES-Food and the Soil Health and Food Mission Board, there will be an introduction to Horizon Europe by the European Commission. The policy debate with representatives from DG AGRI and DG Research & Innovation will focus on the Missions as new instruments in Horizon Europe. In the afternoon, the Stakeholder Forum for TP Organics members only will take place.

Session II will consist of the LIVESEED European Workshop, which will look at the implementation of the organic seed regulation as well as national progress made in the context of LIVESEED. We will also launch a European scale Router Database connecting national organic seed databases with accounts for seed suppliers and national authorities to manage seed offers.

Present on social media? Share this event using the hashtags #OrganicInnovationDays #OID2020 #TPOrganics as well as the Twitter handle @LIVESEEDeu

For updates, please visit: <https://tporganics.eu/organic-innovation-days/> or the LIVESEED website: <https://www.liveseed.eu/>

We are looking forward to seeing you at the Organic Innovation Days 2020!

# H2020/HORIZON EUROPE QUESTION & ANSWER SESSION

With 20 years of hands-on experience in developing and implementing EU-funded projects and EC contracts, we can guarantee you our trainers can answer all of your burning questions!

25 November 2020 - 25 November 2020

Online, Hungary

© Europa Media Trainings

Join us for our first H2020 and Horizon Europe Question & Answer session with our trainers Ömer Ceylan and Jelena Lazic on the 25th of November at 12 PM CET.

What is the H2020/Horizon Europe Question & Answer session?

As the name says, we are going to organize a half an hour free event where our trainers will be answering your questions on EU Research projects.

Perhaps you're wondering if it is compulsory to submit a precise D&C plan at proposal stage, what key things you should consider regarding impact in a R&I proposals and what changes will the upcoming Horizon Europe programme bring.

Don't worry. We are here to clear all your doubts.

The international online conference "Interconnected voices: Climate change, equity, and the way forward" provides a lens towards climate injustice within the broader context of climate change in 2020 by bridging a variety of processes, strategies, practices, and actors. The two days online conference aims to discuss these challenges in an interdisciplinary and inclusive way. Instead of moving scholars emitting additional and avoidable CO<sub>2</sub>, we want to move ideas, inspirations, and motivation in our interactive online format.

Climate change is a global and urgent issue that requires all existing brainpower. Creating a workspace where currently underrepresented groups can enter will encourage more diverse perspectives, will have a broader reach, and enable more creative, holistic, and sustainable solutions to the pressing issues we are facing. This conference aims at including a more diverse range of voices in the discussion.

The call for contributions refers to the following sessions:

25th November 2020: Climate Change

Challenges of climate change on water, energy, and environment (presentations)

Technical solutions - renewable energy (presentations)

Economic solutions (presentations)

Socio-political solutions (presentations)

Interdisciplinary solutions (presentations)

26th November 2020: Climate INjustice

Different perspectives on climate justice (presentations)

Workshops on climate justice: how can we work on inclusive solutions? (workshop)

The presentations will have a time slot of 15 minutes and 5 minutes of Q&A; the workshop time slot is 2.5 hrs. We also welcome all other types of contributions (videos, talks, picture shows with explanation, etc.).

Important Dates

(NEW!) 30th October 2020: Extended submission deadline  
06th November 2020: Notification of accepted contributions  
25–26 November 2020: Online Conference with possible Conference Hub(s) in Germany and the Arab World

### Eligibility

The conference aims to integrate diverse voices of our societies and therefore has no specific eligibility criteria. We are searching for innovative ideas and solutions to tackle the impacts of climate change. The type of contribution is not limited to workshops and presentations, all other formats are welcome (e.g. videos, talks, the picture shows with explanation).

### Application Documents

1- Curriculum vitae (CV)

2- Motivation letter including a short description of the proposed topic and type of contribution referring to a specific session (see draft program); max. one page.

Language: English

Contact & Registration: Interested participants are invited to submit their application in English to the conference team until October 30th, 2020 to [katrin.lammers@rl-institut.de](mailto:katrin.lammers@rl-institut.de) and [zakia.soomauroo@rl-institut.de](mailto:zakia.soomauroo@rl-institut.de)

### Conference Organizers

Prof. Dr. Zeina Hobaika | AGYA Member | @: [zeina.hobaika@usj.edu.lb](mailto:zeina.hobaika@usj.edu.lb)

Saint Joseph University Beirut

Dr. Philipp Blechinger | AGYA Member | @: [philipp.blechinger@rl-institut.de](mailto:philipp.blechinger@rl-institut.de)

Reiner Lemoine Institut

All applications will be evaluated carefully and the results of the selection process will be communicated by November 6th, 2020. The conference will begin on Wednesday 25 November 2020, at 9:00 am CET, and end on Thursday, 26 November 2020, at 18:00 CET.

This is a project of the AGYA Working Group Energy, Water, and Environment. The Arab-German Young Academy of Sciences and Humanities (AGYA) is based at the Berlin-Brandenburg Academy of Sciences and Humanities (BBAW) and at the Academy of Scientific Research & Technology (ASRT) in Egypt, it is mainly funded by the German Federal Ministry of Education and Research (BMBF).

Please also find the Call for Contributions with further information through this link:

# Horizon 2020 Proposal Writing: A Hands-on Approach

Are you preparing a proposal to submit under the upcoming deadlines of Horizon 2020?

This webinar will provide you hands-on tips to make your proposal more competitive and boost its chances to get funded.

26 November 2020 - 26 November 2020

Online, Hungary

© Europa Media Trainings

2-hour long online course on 26 November 2020 at 14.00 CEST

Topics covered:

- \*Understand the common features of successful Horizon 2020 proposals
- \*Learn about the typical shortcomings leading to lower scores in evaluation
- \*Design your proposal to be easily comprehensible and digestible by the evaluators
- \*Learn how to compose text when you run out of ideas
- \*Get an insight to the evaluation process: how the evaluators think and how to satisfy the expectations of different types of evaluators.

At the end of the webinar, you will be able to see your proposal from a different perspective and will have new ideas to introduce in your proposal to increase its

chances to get funded.

# MASTER OF FINANCE: Third-parties, Subcontractors, and other direct costs in H2020 and Horizon Europe

This is the third part of our Master of Finance Series, consisting of 3 parts.

CLIMATE CHANGE  
AND ENVIRONMENT

ENERGY

FUNDAMENTAL  
RESEARCH

27 November 2020 - 27 November 2020

Online, Hungary

© Europa Media Trainings

Learn all the essentials of the financial rules in Horizon 2020 and Horizon Europe: Planning, calculating, reporting, reviewing.

A sound understanding of the financial rules of the Horizon 2020 Annotated Model Grant Agreement is key for a proper implementation of your research and innovation project.

We will introduce the essentials of finances in H2020/HEU to make sure you get things right from the very beginning.

Topics covered:

- How to harmonise national accounting protocols with the H2020/HEU Grant Agreement articles
- Budgeting and planning: Why it is the most crucial part?
- What is a cost reimbursement? What is lump sum financing?
- Actual costs and unit costs? Which one should I choose?

- What makes any cost eligible? How to make them eligible?
- Linking a cost to the project? What makes them direct costs?
- Can I report indirect costs? If not, why not?

At the end of this webinar, you will get a complete picture of the key issues of finances in H2020 and HEU.

# PM<sup>2</sup> Alliance 2020 International Online Conference “Moving Forward: The PM<sup>2</sup> Advantage”

Participating >> Sharing >> Learning >> Adopting >> Evolving

30 November 2020 - 2 December 2020

Brussels, Belgium

© PM<sup>2</sup> Alliance

The PM<sup>2</sup> Alliance 2020 International Conference will be conducted online between November 30th and December 2nd 2020, bringing together representatives from Institutions, Member States' public administrations, PM<sup>2</sup> Practitioners, Trainers, and PM<sup>2</sup> Methodology Experts, to share their personal experiences in using the PM<sup>2</sup> Advantage to benefit and evolve their Organisations.

The presentations and discussions focus on the use of Project Management best practices and Methodologies helping organisations face the challenges of project performance, engagement with clients and keeping up with the complexities of managing contractors and outsourced projects.

The PM<sup>2</sup> Alliance Conference is an event that is rapidly being established as a landmark European event. The International Conference of 2019 was particularly successful, with great participation both in terms of speakers and attendance. This year's

Conference is planned to be the larger, broader and most comprehensive gathering of the Association, with keynote speakers from European & International Institutions, Academia, Public Sector, SMEs, Consultants and the presence of the vast majority of European Project Managers.

Join us online and seize the opportunity to attend a wide range of Keynote presentations, Workshops and Panel discussions.

Free registration for non-members ends soon.
